Amendment No.: NITDB- O&M-LICB/ FY 2019/020 – 01/ AMD – 1

Amendment Date: 15 January 2020

Amendment Document

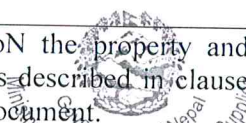

Following amendments have been made:

S.N.	Bidding Reference	Document	Original Provision	Amended Provision
1	Section -5, 5.5.6, Equipment, from 6 th Line		<p>The operator shall procure /replace and install at least three new reach stacker(s) for the stacking and shifting of containers within one year of awarding of the contract with the prior consent of the employer. The life of the reach stacker(s) will be assumed as ten years and will be depreciated at 10% per annum on straight line basis. If the contract for the operation of the ICD gets terminated before 10 years, the employer will compensate the terminal operator with the book value of the reach stacker(s) so arrived at. However, to be eligible for compensation, the TMC should get prior approval of the employer before purchase and maintain the equipment in running condition at all times.</p> <p>In addition, four Reach Stackers owned by the NITDB which have executed 18 years of its economic life, but in working condition will form</p>	<p>The operator shall procure /replace and install at least three new reach stacker(s) for the stacking and shifting of containers within six month of awarding of the contract with the prior consent of the employer. The life of the reach stacker(s) will be assumed as ten years and will be depreciated at 10% per annum on straight line basis. If the contract for the operation of the ICD gets terminated before 5 years, the employer will compensate the terminal operator with the book value of the reach stacker(s) so arrived at. However, to be eligible for compensation, the TMC should get prior approval of the employer before purchase and maintain the equipment in running condition at all times.</p> <p>In addition, TMC may use four Reach Stackers owned by the NITDB and will form part of the assets leased to the TMC. To bring efficiency in cargo handling and reduce dwell time TMC has to arrange the adequate numbers of</p>

		part of the assets leased to the TMC. To bring about efficiency in cargo handling and reduce dwell time TMC should maintain NITDB's Reach Stackers and add two more Reach Stackers for facilitating the trade.	Reach Stackers, cranes, forklifts, trailer and required equipment.
2	Section -4, Page 4-13, 4-14, Equipment Operation	<p>Equipment Operation:</p> <p>For the efficient operation of containers in the ICD, the NITDB will provide 4 units of Reach Stacker (3 of 45 tons and 1 of 7.5 tons) which has completed 18 years of economic life. The TMC has to run that equipment efficiently and utilise the capacity to maximum extent to minimise the dwell time. Therefore, it is the responsibility of the TMC to operate the equipment and maintain the performance standards of the equipment by the trained staff as per the manufacturer's maintenance standard and schedule.</p> <p>NITDB expects that adequate handling equipment like reach stackers for the use of stacking and shifting ISO/DSO containers, cranes,, Loader, forklifts, tractor-trailers and wheelbarrows, scales, computer equipment presently available in the ICD will be replaced/ procured/rented/leased and maintained adequately by the TMC based upon requirement after assessment of feasibility until the end of the lease. The operator shall procure /lease and install at least three new reach stacker(s) for the stacking and shifting of containers within six months of awarding of the contract. The reach stackers purchased / leased by the TMC shall be taken away by the TMC itself after completion of contract. NITDB shall not buy or take any</p>	<p>Equipment Operation:</p> <p>NITDB expects that adequate handling equipment like reach stackers for the use of stacking and shifting ISO/DSO containers, cranes,, Loader, forklifts, tractor-trailers and wheelbarrows, scales, computer equipment presently available in the ICD will be replaced/ procured/rented/leased and maintained adequately by the TMC based upon requirement after assessment of feasibility until the end of the lease.
